**BMC GROUP, INC. ACQUIRES ANALYTICS INCORPORATED BOLSTERING ITS
SUITE OF LEGAL INFORMATION MANAGEMENT SERVICES**

New York, NY (May 28, 2008) – BMC Group Inc., a leading provider of legal information management services has announced its acquisition of Analytics Incorporated, a premier provider of class action consulting and settlement administration services.

The Analytics acquisition strengthens BMC Group’s class action and bankruptcy service offerings with proven large-scale class action and mass tort settlement administration capabilities. “The acquisition of Analytics is representative of our continuing strategy of combining BMC Group’s advanced technology with best-of-breed service to provide superior information management solutions,” said BMC Group CEO Sean Allen. “This builds upon our proven experience and success in implementing complex class action and mass tort settlements. Analytics will immediately benefit from BMC Group’s worldwide presence, advanced technologies and strategic partnerships.” added Richard W. Simmons, President of Analytics. “The acquisition of Analytics expands our capacity to provide one-stop information management and consulting solutions to the legal community,” said Tinamarie Feil, President of BMC Group.

About BMC Group, Inc.

BMC Group, Inc. is a leading information management and professional services company serving major law firms, financial institutions and Fortune 1000 corporations. We collect, manage and deliver information through our professionals who combine transactional experience and sector knowledge to ensure relevant compliance and/or business requirements. Our use of proprietary tools and processes reduces costs and decreases turnaround time for production and maintenance of critical information. BMC Group has multiple offices in North American cities, as well as in London and Hong Kong. www.bmcgroup.com.

About Analytics Incorporated

Analytics Incorporated is a premier national class action consulting firm with over thirty-five years of experience consulting on complex class action litigation for major law firms, governmental agencies, and Fortune 1000 corporations. Analytics specializes in providing electronic discovery and analysis, notice program design, and settlement consulting services in class action and mass tort litigation. Analytics' experience includes settlements involving antitrust, civil rights, consumer fraud, insurance, medical devices, product liability, racial and sexual discrimination, and securities fraud allegations. Analytics Incorporated is headquartered in Minneapolis, with regional offices across the country. www.analytics-inc.com or www.settlementadministrator.com.
